RUN DPINST 1

```
Last version
***************
        - V1.4.0 - 10/20/2014
Supported OS
***************

        + Windows 98SE, 2000, XP, Vista, Seven, 8.x (x86 & x64 Windows platforms)

Contents
***********
        + VCP_V1.4.0_Setup.exe              : Setup file to Copy required files
            + version.txt                       : History of versions
            + readme.txt                        : This file

How to use
***************

        1- Uninstall previous versions (Start-> Settings-> Control Panel-> Add or remove programs)

        2- Run your "VCP_V1.4.0_Setup.exe"

            3- Go to Your installation directory - Example, C:\Program Files (x86)\STMicroelectronics\Software\Virtual comport driver

            4- Go to Your OS version directory ([Win7] or [Win8])
                    + Then :
                            - Double click on dpinst_x86.exe if you are running a 32-bits OS version
                            - Double click on dpinst_amd64.exe if you are running a 64-bits OS version
                    + Follow the instructions.
